

## LED GROW LIGHT LIGHTING DESIGN Q & A SHEET

Please answer the following questions before the CALIVE Lighting Design Team starts the project. Thank you for your cooperation.

1. Please provide the height of the building and the building floor plans?
2. What plant(s) will you be growing?
3. Please provide dimensions of grow room(s)?
4. What is the intended grow medium? Vertical racks, roller beds, pallets, pots or other.  
What are the dimensions of the grow medium and intended layout plan?  
(For grow method and layout plan, please check the reference images below.)
5. What is the intended or optimum light exposure per day?  
(Such as, 16hrs the light will be turn on and 8hrs it is turned off.)
